1 ABOUT CRIMSON ACADEMY OF KAGINA

1.1 Mission Statement

Children carry the hopes of the future. Providing access and opportunity to educate children around the world is our aim and purpose. Crimson Academy will embolden children and communities to reach beyond impossibilities and transform the future for the better. We are committed to facilitating learning experiences that will assist our students to achieve their greatest potential to adapt and adjust to a diverse and ever changing society. We aspire to give children a sense of understanding and compassion for others, and the courage to act on their beliefs. We stress the total development of each child: spiritual, moral, intellectual, social, emotional, and physical.

1.2 Core Values

The values of Crimson Academy stem from a purposeful reflection to create an environment that mirrors the character of Christ. The values also seek to promote qualities that embolden character towards spiritual, intellectual and socio-emotional wellbeing. Our values serve as guiding principles to direct our best efforts and most ambitious endeavors towards purpose.

Values Definitions

- ❖ **Truth** - [John 3:21](#) - But whoever lives by the **truth** comes into the light, so that it may be seen plainly that what they have done has been done in the sight of God.
 - **Faith** - [Hebrews 11:1](#) - Now **faith** is the substance of things hoped for, **the** evidence of things not seen.
- ❖ **Discipline** - [1 Corinthians 9:27](#) - But I **discipline** my body and bring *it* into subjection, lest, when I have preached to others, I myself should become disqualified.
 - **Hope** - [Psalm 31:24](#) - Be of good courage, And He shall strengthen your heart, All you who hope in the Lord.
- ❖ **Service** - [Mark 10:45](#) - For even the Son of Man did not **come to be served**, but **to serve**, and **to give** His life a ransom for many.”
 - **Love** - [1 Corinthians 13](#) - These three abide, faith, hope, and love; but the greatest of these is love.

1.3 School History

Crimson Academy of Kagina was established in 2011 with four classrooms serving 181 students from grades 1 through 4. Each subsequent year over the following years 2012 and 2013, the school expanded by building one extra class per year up to Grade 6. In late 2016, with the help of partnering organization such as Crimson Foundation and Jenzabar Foundation, six additional classrooms, library, computer lab, missionary housing and teacher housing facilities have been built. The school now educates over 620 students. The school offers transportation services for students who live far away, food program for nursery students, micro-loan and livestock programs for community members. The school employees 22 teaching staff, security guard and three bus drivers.

Since the inception of Crimson Academy of Kagina, we have sought to provide quality education for marginalized school aged children in the Kamonyi District. Over the course of the last several years, the school has made significant strides in the academic achievement of our students. Specifically, our students have performed at the highest level as determined on the Rwandan National Exam. Crimson Academy of Kagina graduating students are the top students within the entire Southern Province.

- ❖ #1 School in Southern Province based on Rwanda National Exams in 2013
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2014
- ❖ #2 School in Southern Province based on Rwanda National Exams in 2015
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2016
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2017
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2018
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2019
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2020
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2021
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2022
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2023
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2024
- ❖ #1 School in Southern Province based on Rwanda National Exams in 2025

Once students leave our school, several top performers are rewarded via educational scholarships to attend secondary school. We currently sponsor 22 secondary students. Our sponsored students have placed in some of the top secondary school in the country. In 2016, Fidele Marantha earned second highest marks on the National Exam within the entire country.

2 EDUCATIONAL MODEL

Crimson Academy seeks to provide a holistic approach to helping learners navigate the global challenges of the 21st century. This will be accomplished by integrating foundational pillars aimed at helping students to think critically by incorporating global perspectives through internationally based instructional best practices; maximize developmental stages by providing socio-emotional and health related support services; broaden cultural and language proficiencies by providing daily instruction in a foreign languages, and practice continuous improvement by integrating curricular components with measurable state and national benchmarks, and utilize a series of technological tools that aid learning, comprehension, and retention by providing a structure where by young learners have both the access and training in educational technology.

2.1 Educational Model Components

- ❖ S.M.A.R.T Curriculum
 - Service and Continuous Improvement
 - Maximizing Developmental Stages
 - Artistic Expression
 - R³ is Fundamental
 - Teacher and Staff Development
- ❖ Student and Family Support Services
 - Health Training and Health Care
 - Developmental, and Evaluation/Assessment Services
- ❖ Daily Instruction in a Foreign Language
 - Daily French, English and Kinyarwanda Instructions
 - Cultural Engagement Activities
 - Advanced Language Development
- ❖ Measurable Benchmarks
 - Proficiency on National Exams
 - Exceeding National Benchmarks for School Performance
 - Data Driven Decision Making
- ❖ Technology Engagement
 - Student Centered Learning and Computing
 - Interactive Multimedia
 - Online Learning

We believe in providing students with a solid framework to acquire the educational acumen to compete in a global, knowledge-based economy. As students matriculate through an educational framework built on a platform of learner best practices and innovation, they will gain a broader perspective of how their newly developed skills directly prepares them to compete in a global economy. The curricular structure is based on five pillars, each contributing to the students' academic, social, and emotional development:

1. **SMART Way to Grow** – Students and staff will engage in rigorous academic and social-emotional activities centered on our overarching curricular philosophy consisting of: **S**ervice and Continuous Improvement; **M**aximizing Developmental Stage; **A**rtistic Expression; **R**eadng, Writing, and Arithmetic; and Teacher and Staff Development.
2. **Support Services** – Students will have access to various health and socio-emotional resources to address the needs of their families. Students and families will have access to medical and mental healthcare services.
3. **Multiple Language of Instruction** – Students will receive daily language lessons in English, French, and Kinyarwanda. The main language of instruction will be English, but French and Kinyarwanda will be used as additional languages of instruction. Fluency in other languages is critical for providing students with a solid foundation in world culture and becoming productive members of local, national and global communities.
4. **Measurable Benchmarks** – As part of the continuous improvement model, students will be monitored and evaluated on regular intervals to observe their growth paths and inform school personnel on how to better serve student needs.
5. **Technology Innovation** – Students will apply technological aids to enhance the educational underpinnings of learning, comprehension and retention. Students will be provided opportunities to learn computer programming.

The educational underpinnings within the CA curricula plan includes the integration and implementation of the SMART Curriculum, the infusion of the multiple languages in both the instructional and curricular daily activities, the technological instructional practices and components to prepare young learners for the technological challenges of the future, accountability measures that tie directly to Central and District benchmarks for success, and the support services to meet the socio-emotional wellbeing and health of children and families.

2.2 Pillars of Learner Success

2.3 School Curriculum

Crimson Academy of Kagina, in accordance with the set policies and regulations set forth by the Ministry of Education (MINEDUC), has adopted the National Competence Based Curriculum established in 2015. Each grade follows the educational standards including educational content, timelines, reporting, and District examination schedules. The school specific hours and school calendar are aligned to the curriculum framework.

2.4 Subject Syllabus Components

In order to achieve a competence level, subject syllabi are based on the following major components:

- ❖ Rationale or relevancy of the subject
- ❖ Broad subject competences
- ❖ Pedagogical and assessment approaches
- ❖ Specific objectives of the subject
- ❖ Competences per unit of learning
- ❖ Learning outcomes per unit of learning
- ❖ Subject content, learning activities and learning materials required
- ❖ Cross-cutting issues

Each component contributes to a subject syllabus that will promote an exciting approach to learning involving practical engagement and leading to a deep level of understanding that enables students to apply their learning with confidence in a range of situations.

The subjects to be studied at each stage are set out below. Time allocations are indicated where appropriate.

2.5 School Benchmarks

Benchmarking at Crimson Academy is important and is used for improving administrative processes as well as instructional models throughout the nursery, lower, and upper schools. Benchmarking is the act of creating measurable standards set for learning on which students are measured. Benchmarking helps to keep students on track for success, and can ultimately raise the standards for education in a classroom, grade level, school or school district. Crimson Academy have developed a set of benchmarks in collaboration with MINEDUC highlighted below:

- ❖ The average marks for all classes should exceed 70%
- ❖ The number of students passing should be at 70%
- ❖ Enrollment Rate will be maintained at 100%
- ❖ Transition Rate will be maintained at 90%
- ❖ Repetition Rate will be maintained at 20%
- ❖ Dropout Rate will be maintained at 15%
- ❖ Student Gender Parity Rate will be maintained between 40-60%
- ❖ Staff Gender Parity Rate will be maintained between 40-60%

2.6 Subject Syllabus Components

In order to achieve a competence level, subject syllabi are based on the following major components:

- ❖ Rationale or relevancy of the subject
- ❖ Broad subject competences
- ❖ Pedagogical and assessment approaches
- ❖ Specific objectives of the subject
- ❖ Competences per unit of learning
- ❖ Learning outcomes per unit of learning
- ❖ Subject content, learning activities and learning materials required
- ❖ Cross-cutting issues

Each component contributes to a subject syllabus that will promote an exciting approach to learning involving practical engagement and leading to a deep level of understanding that enables students to apply their learning with confidence in a range of situations.

The subjects to be studied at each stage are set out below. Time allocations are indicated where appropriate.

2.7 Time Allocations

At the pre-primary stage, here are six integrated and thematic approaches to learning areas so that the children learn holistically by engaging in practical activities.

Pre-Primary	Age	Required Learning Areas
Grade 1	3-4 Years	Discovery of the World, Numeracy, Physical and Health Development, Creative Arts, Language and Literacy, and Social and Emotional Development
Grade 2	4-5 Years	
Grade 3	5-6 Years	

At the lower primary level, learners study seven subjects as shown in the following table.

Subjects in Lower Primary	Weights	Number of Periods (1 period = 40 min.)		
		P1	P2	P3
1. Kinyarwanda	27	8	8	8
2. English	23	7	7	7
3. Mathematics	20	6	6	6
4. Social Studies	13	4	4	4
5. Science	7	2	2	2
6. Creative Arts	7	2	2	2
7. Physical Education	3	1	1	1
Total Number of Periods per Week	100	-30	-30	-30
Total Number of Contact Hours per Week		20	20	20
Total Number of Contact Hours Per Year		780		

At the upper primary level, learners study eight subjects as shown in the following table.

Subjects in Upper Primary	Weights	Number of Periods (1 period = 40 min.)		
		P1	P2	P3
1. Kinyarwanda	13	4	4	4
2. English	23	7	7	7
3. Mathematics	23	7	7	7
4. Social Studies	13	4	4	4
5. Science	17	5	5	5
6. Creative Arts	3	1	1	1
7. Physical Education	3	1	1	1
8. French	3	1	1	1
Total Number of Periods per Week	100	-30	-30	-30
Total Number of Contact Hours per Week		20	20	20
Total Number of Contact Hours Per Year		780

3 SCHOOL DEMOGRAPHICS

3.1 School Staffing Composition

Crimson Academy operates with a dedicated team of **33 employees**, ensuring comprehensive support for its students and facilities. The administrative backbone consists of

- ✿ **2 Administrators**, while the academic programs are delivered by
- ✿ **6 Upper school teachers**
- ✿ **6 Lower school teachers**
- ✿ **4 Language teachers**
- ✿ **3 Nursery teachers**
- ✿ **3 teaching assistants**
- ✿ **1 Karate Instructor**
- ✿ **1 Gymnastics/Futbol Instructor**

Beyond academics, the academy's operations are managed by **1 driver**, **3 cooks** for student meals, **1 cleaner** to maintain hygiene, and **2 security guards** to ensure a safe environment for everyone.

3.2 Teacher Demographics and Qualifications

NO	QUALIFICATION	GENDER		TOTAL
		MALE	FEMALE	
1	A0	0	0	0
2	A2	10	13	23
4	A1	0	0	0
TOTAL		10	13	23

3.3 Distribution by Gender and Ethnicity:

Gender Distribution									
	Nursery	Primary 1	Primary 2	Primary 3	Primary 4	Primary 5	Primary 6	Count	Percent
Boys	68	71	57	43	45	61	20	365	47%
Girls	82	60	64	73	56	56	24	415	53%
Total	150	131	121	116	101	117	44	780	100%

Based on the "Gender Distribution" table, the school has a slightly higher percentage of **girls (53%)** than **boys (47%)**, with a total student population of **780**.

Looking at the specific grade levels, girls outnumber boys in **Preschool (82 vs. 68)** and **Primary 2 through Primary 4**. Conversely, boys are the majority in **Primary 1 (71 vs. 60)**, **Primary 5 (61 vs. 56)**, and **Primary 6 (24 vs. 20)**. The most notable differences in enrollment are in Preschool and Primary 3, where there are significantly more girls, and in Primary 1, where there are more boys. Overall, the gender split is relatively even, with a total difference of only 50 students.

Ethnicity Distribution									
	Nursery	Primary 1	Primary 2	Primary 3	Primary 4	Primary 5	Primary 6	Count	Percent
Other	150	114	63	104	95	109	41	676	87%
Potters	0	17	58	12	6	8	3	104	13%
Total	150	131	121	116	101	117	44	780	100%

Based on the provided "Ethnicity Distribution" table, the student population is overwhelmingly comprised of the **"Other" ethnicity**, which makes up **87%** of the school's total of 780 students. The **"Potters"** ethnicity accounts for the remaining **13%**.

A class-by-class analysis shows a significant disparity. In **Nursery**, there are no students of the "Potters" ethnicity. The number of "Potters" students is highest in **Primary 2**, with 58 students, followed by **Primary 1** with 17 students. In all other primary levels (Primary 3, 4, 5, and 6), the number of "Potters" students remains very low, at 12 or fewer. This suggests that while there is some diversity, the student body is heavily concentrated in the "Other" ethnic group.

4 SCHOOL PERFORMANCE

4.1 Nursery Middle Performance

The student had a strong start in **Term 1**, with a high overall average of **84%** and a 90% pass rate. Their best subjects were Health Hal Shade, Reading, English, and Writing, all scoring in the 80s and 90s.

However, a noticeable drop occurred in **Term 2**, with the average falling to **79%**, although the pass rate remained high at 92%. The most dramatic decline was in **Term 3**, where the average plummeted to **62%** and the pass rate dropped to just 61%. This term saw scores in subjects like Writing and Reading fall into the 40s and 50s, which significantly impacted the final average and overall performance. The grades indicate a downward trend that needs to be addressed.

4.2 Nursery Top A Performance

Average Class Test Scores for Nursery Top A

The student started strong in **Term 1**, achieving an impressive average of **90%** with a pass rate of 86%. This term featured exceptional scores in multiple subjects, including a 94 in Social Development Sports, and 92s in both Math and English.

While the overall average saw a slight dip in **Term 2** to **84%**, the student's performance remained strong, and their pass rate improved to 94%.

In **Term 3**, the student's average rebounded to **89%**, maintaining the high pass rate of 94%. The student's grades in this term were consistently high, with scores of 93 in Reading and 91 in Social Dev Sports, demonstrating remarkable consistency and academic excellence throughout the year.

4.3 Nursery Top B Performance

Average Class Test Scores for Nursery Top B

Based on the provided grade table for **TopB**, the student's performance shows a very strong start followed by a consistent, high-level performance.

In **Term 1**, the student achieved an exceptional average of **93%**, with a pass rate of 83%. This term included outstanding scores of 97 in English and 96 in Health Hal Shade.

The average score saw a moderate decline in **Term 2**, falling to **84%**, where it remained for **Term 3**. Despite this drop, the student maintained an excellent performance level and consistently improved their pass rate, which rose from 88% in Term 2 to 92% in Term 3. While some subject grades fluctuated, such as Math dropping to 71% in Term 3, the student's overall performance stayed consistently high, demonstrating continued academic excellence.

4.4 First Grade Performance

First Grade A - Average Class Test Scores

The student started with a respectable average of **75%** in **Term 1**, earning a 74% pass rate. Their strongest subjects were Creative A and Sports, both with scores of 97%, and a solid 78% in Math.

However, a dramatic drop occurred in **Term 2**, with the average plummeting to **53%** and the pass rate falling to just 28%. The grades in core subjects like Math, Social Studies, Science, and English fell to the 30s and 40s. The student's performance remained low in **Term 3**, with a similar average of **54%** and a pass rate of 36%. While grades in Creative A and Sports remained strong in both terms, the decline in the core academic subjects is the primary reason for the overall poor performance. The data indicates a consistent struggle in core subjects following the first term.

First Grade B - Average Class Test Scores

Based on the provided grade table for **P1B**, the student's performance shows a sharp decline after the first term, with a clear split between their academic and creative subject grades.

The student began with a solid average of **68%** in **Term 1**, earning a pass rate of 80%. Their strongest subjects were Math and English, scoring 83% and 79% respectively.

A significant drop occurred in **Term 2**, with the overall average falling to **61%** and the pass rate plummeting to just 31%. Core academic subjects like English, Social Studies, Science, and Kinyarwanda French saw their grades drop considerably, with some scores falling below 50%. The student's average remained at **61%** in **Term 3**, with a slightly improved pass rate of 43%.

Throughout all three terms, the student demonstrated consistent excellence in the **Creative A** and **Sports** subjects, with scores in the 90s during Term 2 and Term 3. This indicates a strong aptitude in those areas despite the persistent struggle with core academic subjects following the first term.

4.5 Second Grade Performance

Second Grade A - Average Class Test Scores

Based on the provided grade table for **P2A**, the student's performance shows a noticeable decline in their overall average, although their pass rate remained consistent in the latter two terms.

The student began with a strong average of **75%** in **Term 1**, with a 68% pass rate. Their highest scores were in the creative subjects, with a 98% in Creative A and 96% in Sports.

A clear decline in performance is evident in **Term 2**, as the average fell to **63%** and the pass rate increased to 50%. The student's grades in core subjects like Math, Social Studies, Science, and English dropped significantly, with scores falling below 50%. This downward trend continued into **Term 3**, where the average decreased slightly to **60%**, and the pass rate remained at 50%. While the student's grades in the core academic subjects remained low, their scores in Creative A and Sports remained high, indicating a persistent disparity between their performance in these different areas.

Second Grade B - Average Class Test Scores

Based on the provided grade table for **P2B**, the student's performance shows a **downward trend in their average grade** over the three terms.

The student started with a satisfactory average of **62%** in **Term 1**, with a 69% pass rate. Their strongest subjects were Social Studies, Science, English, and French, all scoring above 60%.

A significant decline occurred in **Term 2**, as the average fell to **60%** and the pass rate dropped dramatically to just 36%. The grades in core academic subjects like Math and English plummeted into the 40s. This downward trend continued into **Term 3**, where the average dropped again to **58%**. While grades in Creative A and Sports showed improvement in Terms 2 and 3, reaching scores as high as 92% and 88%, the student's struggles in academic subjects like Math, which fell to 35%, and French, which dropped to 45%, are the primary factors behind the declining overall average. The data indicates a consistent weakness in core subjects that needs to be addressed.

4.6 Third Grade Performance

Third Grade A - Average Class Test Scores

Based on the provided grade table for **P3A**, the student's performance remained consistently low, with a minor dip in the final term, while the pass rate saw a steady increase.

In **Term 1**, the student's average was **61%**, with a low pass rate of 27%. Their strongest areas were **Creative A** and **Sports**, with scores of 80% and 91% respectively. Most academic subjects were in the 40s and 50s.

The student's average remained at **61%** in **Term 2** and saw a slight decrease to **60%** in **Term 3**. Despite this, the pass rate saw significant improvement, rising from 27% in Term 1 to 36% in Term 2 and finally to 51% in Term 3. While the student showed a clear aptitude for **Creative A** and **Sports**, which consistently scored in the 70s and 80s, their performance in core academic subjects like Kinyarwanda, French and English remained a concern, with grades mostly in the 40s and 50s.

Third Grade B - Average Class Test Scores

Based on the provided grade table for **P3B**, the student's performance shows a **slight improvement in their average grade and pass rate** over the three terms.

In **Term 1**, the student had a low average of **53%** with a pass rate of 40%. Their grades in academic subjects were generally in the 50s, while scores in Creative A and Sports were low, in the 40s.

A noticeable improvement occurred in **Term 2**, with the average increasing to **62%** and the pass rate reaching 50%. This improvement was driven by a significant rise in their Creative A and Sports scores, which jumped into the 80s and 70s, as well as a slight increase in their core academic subjects. The student maintained a similar average of **61%** in **Term 3**, holding the pass rate at 50%. While core academic subjects fluctuated, the student's consistent high performance in Creative A and Sports stabilized their overall average and contributed to the upward trend in their pass rate.

4.7 Fourth Grade Performance

Fourth Grade A - Average Class Test Scores

Based on the provided grade table for **P4A**, the student's performance shows a **strong and consistent upward trend** across all three terms.

In **Term 1**, the student had an average of **65%** and a pass rate of 23%. Their grades in academic subjects were low, mostly in the 40s and 60s, but they showed a clear aptitude for Creative A and Sports, with scores of 94% and 100% respectively.

A significant improvement is evident in **Term 2**, as the average dropped to **61%** but the pass rate dramatically increased to **60%**. The most impressive progress was made in **Term 3**, where the student's average rose to **70%** and the pass rate soared to an excellent **82%**. This final term saw notable gains in core subjects like Math, English, Social Studies, and Science, which all saw grades in the 60s. This data indicates that the student consistently improved their academic performance, particularly in core subjects, while maintaining a high level of achievement in their creative and athletic pursuits.

Fourth Grade B - Average Class Test Scores

Based on the grade table for **P4B**, the student's performance shows a **strong and consistent upward trend** across all three terms.

In **Term 1**, the student had a low average of **51%** with a pass rate of 28%. Their grades in academic subjects were generally low, with several scores in the 30s and 40s.

A significant improvement is evident in **Term 2**, as the average rose to **61%** and the pass rate increased to 37%. The most impressive progress was made in **Term 3**, where the student's average rose to **69%** and the pass rate soared to an excellent **63%**. This final term saw notable gains in core subjects, with Math, English, Social Studies, and Science all seeing scores in the high 50s and low 60s. This data indicates that the student consistently improved their academic performance, particularly in core subjects, while their grades in Creative A and Sports showed remarkable improvement as well, with scores of 100% and 87% respectively in Term 3.

4.8 Fifth Grade Performance

Fifth Grade A - Average Class Test Scores

Based on the grade table for **P5A**, the student's performance shows a **positive and consistent upward trend** in both their overall average and pass rate across the three terms.

In **Term 1**, the student had a satisfactory average of **65%** and a pass rate of 45%. While their academic subject scores were mostly in the 50s and 60s, they had strong grades in Creative A and Sports, with an 83% and 87% respectively.

The student's average saw a slight dip to **64%** in **Term 2**, but their pass rate improved to 56%. The most significant progress occurred in **Term 3**, where the average rose to **66%** and the pass rate soared to an excellent **78%**. This term saw marked improvement in core academic subjects, with a notable increase in Math, English, Social Studies, and Science scores. This data indicates the student is making consistent academic gains while maintaining a strong performance in their creative pursuits.

Fifth Grade B - Average Class Test Scores

Based on the provided grade table for **P5B**, the student's performance shows a **strong and consistent upward trend** in both their overall average and pass rate across all three terms.

In **Term 1**, the student's average was a low **53%**, with a pass rate of 27%. Most of their academic subjects were in the 50s, while Creative A and Sports scores were particularly low, in the 40s.

A significant improvement is evident in **Term 2**, as the average rose to **58%** and the pass rate more than doubled to 57%. This positive momentum continued into **Term 3**, where the student's average climbed to **64%** and the pass rate reached an excellent **61%**. This final term saw notable gains across the board, particularly in core subjects like English, Social Studies, and Science, which both improved to over 60%. The grades in Creative A and Sports also saw remarkable improvement, ending the year with scores of 70% and 83% respectively. This data indicates that the student consistently improved their academic performance and creative pursuits throughout the year.

4.9 Sixth Grade Performance

Sixth Grade - Average Class Test Scores

Based on the grade table for **P6**, the student's performance shows a **dramatic and highly positive improvement** across all three terms.

In **Term 1**, the student had a respectable average of **67%** and a 69% pass rate. Their grades were solid, with their highest score being a 71% in Kinyarwanda French.

A remarkable leap occurred in **Term 2**, as the average soared to **82%** and the pass rate reached an impressive **100%**. This term saw grades in every single subject improve significantly, with Math, English, Social Studies, and Science all jumping into the 80s. This positive trend continued into **Term 3**, where the student's average rose even further to **84%**, maintaining a perfect 100% pass rate. Notably, they achieved an outstanding 90% in Social Studies and continued to excel in their academic subjects, demonstrating exceptional progress and a mastery of the curriculum.

Based on the P6 National Examination Results for the 2024-2025 school year, the student body demonstrated **exceptional academic performance**, achieving an outstanding **overall class average of 90.4%**. The results were consistently high across all subjects, with an impressive average of 94.1% in SRS, 88.4% in KINY, 90.7% in SCI, 96.1% in ENG, and 82.8% in MTC. Every single student in the class achieved an **overall Division A**, indicating a remarkable level of mastery of the curriculum. This stellar performance is further highlighted by the fact that all students were successfully placed in top boarding secondary schools in the country, a testament to their hard work and the school's commitment to academic excellence.

4.11 School Performance Summary

The graph below illustrates school performance for the year by grade level.

Crimson Academy School Performance Summary 204-2025				
Class	Term 1	Term 2	Term 3	Areas of Improvement
Middle	The student had a strong start in Term 1, with a high overall average of 84% and a 90% pass rate. Their best subjects were Health Hal Shade, Reading, English, and Writing, all scoring in the 80s and 90s.	A noticeable drop occurred in Term 2, with the average falling to 79%, although the pass rate remained high at 92%.	A dramatic decline in Term 3, where the average plummeted to 62% and the pass rate dropped to just 61%. This term saw scores in subjects like Writing and Reading fall into the 40s and 50s.	Targeted Interventions: Implement targeted interventions for core subjects in the final term. Focus on identifying and supporting struggling students to prevent a repeat of the steep decline.
TopA	The student started strong in Term 1, achieving an impressive average of 90% with a pass rate of 86%. This term featured exceptional scores in multiple subjects, including a 94 in Social Development Sports, and 92s in both Math and English.	The overall average saw a slight dip in Term 2 to 84%, but the student's performance remained strong, and their pass rate improved to 94%.	In Term 3, the student's average rebounded to 89%, maintaining the high pass rate of 94%. The grades in this term were consistently high, with scores of 93 in Reading and 91 in Social Dev Sports.	Maintain Excellence: Continue to maintain a high standard of academic rigor. Implement enrichment programs and advanced projects to challenge these high-achieving students and ensure continued engagement.
TopB	In Term 1, the student achieved an exceptional average of 93%, with a pass rate of 83%. This term included outstanding scores of 97 in English and 96 in Health Hal Shade.	The average score saw a moderate decline in Term 2, falling to 84%, but their pass rate improved to 88%.	The average remained at 84% for Term 3, with a notable increase in the pass rate to 92%. Their grades in Math dropped to 71%, but they maintained excellent performance overall.	Address Specific Dips: While performance is excellent, focus on addressing the specific subject dips, such as the drop in Math scores, through individualized learning plans or supplementary resources to ensure all subjects are at an equally high standard.

P1A	The student started with a respectable average of 75% in Term 1, earning a 74% pass rate. Their strongest subjects were Creative A and Sports, both with scores of 97%, and a solid 78% in Math.	A dramatic drop occurred in Term 2, with the average plummeting to 53% and the pass rate falling to just 28%. The grades in core subjects like Math, Social Studies, Science, and English fell to the 30s and 40s.	The student's performance remained low in Term 3, with a similar average of 54% and a pass rate of 36%. While grades in Creative A and Sports remained strong, the decline in the core academic subjects is the primary reason for the overall poor performance.	Foundational Skills: Develop a school-wide strategy to address the significant drop in core academic subjects after Term 1. Consider small-group tutoring or remedial sessions to rebuild foundational skills and knowledge.
P1B	The student began with a solid average of 68% in Term 1, earning a pass rate of 80%. Their strongest subjects were Math and English, scoring 83% and 79% respectively.	A significant drop occurred in Term 2, with the overall average falling to 61% and the pass rate plummeting to just 31%. Core academic subjects like English, Social Studies, Science, and Kinyarwanda, French saw their grades drop considerably.	The student's average remained at 61% in Term 3, with a slightly improved pass rate of 43%. Grades in Creative A and Sports remained high, which stabilized their overall average.	Address Decline in Core Subjects: Implement a focused plan to address the widespread drop in core academic grades. This might involve additional practice, different teaching methods, or peer support systems to bring all academic subjects back up to a passing level.
P2A	The student began with a strong average of 75% in Term 1, with a 68% pass rate. Their highest scores were in the creative subjects, with a 98% in Creative A and 96% in Sports.	A decline in performance is evident in Term 2, as the average fell to 63% and the pass rate increased to 50%. The grades in core subjects like Math, Social Studies, Science, and English dropped significantly.	This trend continued into Term 3, where the average decreased slightly to 60%, even as the pass rate dramatically increased to 98%. The grades in core academic subjects remained low.	Bridging the Gap: Address the significant performance gap between academic subjects and creative subjects. Leverage the student's strengths in creative areas to build confidence and apply similar project-based learning or hands-on activities to core subjects.
P2B	The student started with a satisfactory average of 62% in Term 1, with a 69% pass rate. Their strongest subjects were Social Studies, Science, English, and French, all scoring above 60%.	A significant decline occurred in Term 2, as the average fell to 60% and the pass rate dropped dramatically to just 36%. The grades in core academic subjects like Math and English plummeted into the 40s.	This downward trend continued into Term 3, where the average dropped again to 58%. The student's struggles in academic subjects are the primary factors behind the declining overall average.	Strategic Intervention: Implement targeted remedial programs for core academic subjects, especially Math and French. The consistent decline indicates a need for foundational support and close monitoring of student progress in these key areas.

P3A	In Term 1, the student had an average of 61%, with a low pass rate of 27%. Their strongest areas were Creative A and Sports, with scores of 80% and 91% respectively.	The student's average remained at 61% in Term 2, but the pass rate saw significant improvement, rising to 36%.	The average saw a slight decrease to 60% in Term 3, but the pass rate rose to 51%. The student's performance in core academic subjects like Kinyarwanda French and English remained a concern.	Enhance Academic Skills: Develop a focused strategy to improve core subject grades, as they remain in the 40s and 50s. Leverage the student's strengths in creative subjects to build confidence and engagement in more challenging academic tasks.
P3B	In Term 1, the student had a low average of 53% with a pass rate of 40%. Their grades in academic subjects were generally in the 50s, while scores in Creative A and Sports were particularly low, in the 40s.	A noticeable improvement occurred in Term 2, with the average increasing to 62% and the pass rate reaching 50%. This was driven by a significant rise in their Creative A and Sports scores.	The student maintained a similar average of 61% in Term 3, holding the pass rate at 50%. While core academic subjects fluctuated, the student's consistent high performance in Creative A and Sports stabilized their overall average.	Sustain Momentum: Analyze and reinforce the strategies that led to the improvement in Term 2 and 3. Provide additional support for academic subjects to boost scores further and create a more uniform improvement across the board.
P4A	In Term 1, the student had an average of 65% and a pass rate of 23%. Their grades in academic subjects were low, mostly in the 40s and 60s, but they showed a clear aptitude for Creative A and Sports, with scores of 94% and 100%.	A significant improvement is evident in Term 2, as the average dropped slightly to 61% but the pass rate dramatically increased to 60%.	The most impressive progress was made in Term 3, where the student's average rose to 70% and the pass rate soared to an excellent 82%. This final term saw notable gains in core subjects.	Recognize and Reinforce: Acknowledge and build on this positive trend. Analyze the successful teaching methods and student engagement strategies from the latter terms and apply them school-wide to sustain the upward momentum.
P4B	In Term 1, the student had a low average of 51% with a pass rate of 28%. Their grades in academic subjects were generally low, with several scores in the 30s and 40s.	A significant improvement is evident in Term 2, as the average rose to 61% and the pass rate increased to 37%. Grades in Creative A and Sports also saw remarkable improvement.	The most impressive progress was made in Term 3, where the student's average climbed to 69% and the pass rate soared to an excellent 63%. This final term saw notable gains across the board, particularly in core subjects.	Celebrate Success and Expand: Celebrate the impressive gains in both academic and creative subjects. Study the reasons behind this success and share best practices with other classes to replicate these results across the school.

P5A	In Term 1, the student had a satisfactory average of 65% and a pass rate of 45%. While their academic subject scores were mostly in the 50s and 60s, they had strong grades in Creative A and Sports, with an 83% and 87% respectively.	The student's average saw a slight dip to 64% in Term 2, but their pass rate improved to 56%.	The most significant progress occurred in Term 3, where the average rose to 66% and the pass rate soared to an excellent 78%. This term saw marked improvement in core academic subjects.	Refine and Focus: Continue to build on the positive momentum from Term 3. Focus on refining teaching strategies in core academic subjects to help the student reach an even higher performance level and consistently pass all subjects.
P5B	In Term 1, the student's average was a low 53%, with a pass rate of 27%. Most of their academic subjects were in the 50s, while Creative A and Sports scores were particularly low, in the 40s.	A significant improvement is evident in Term 2, as the average rose to 58% and the pass rate more than doubled to 57%.	This positive momentum continued into Term 3, where the student's average climbed to 64% and the pass rate reached an excellent 61%. This final term saw notable gains across the board.	Reinforce Upward Trend: Continue to reinforce the strategies that led to the consistent gains in both academic and creative subjects. The positive trend is a strong foundation for continued growth.
P6	In Term 1, the student had a respectable average of 67% and a 69% pass rate. Their grades were solid, with their highest score being a 71% in Kinyarwanda French.	A remarkable leap occurred in Term 2, as the average soared to 82% and the pass rate reached an impressive 100%. This term saw grades in every single subject improve significantly.	This positive trend continued into Term 3, where the student's average rose even further to 84%, maintaining a perfect 100% pass rate. Notably, they achieved an outstanding 90% in Social Studies, and Science.	Create a Model for Success: This class's performance can serve as a model for other classes. Use their successful learning and teaching strategies to help drive improvement in other grade levels. Additionally, ensure students are being challenged with advanced coursework.

Benchmark Averages			66.46			1%	100%	78%	23%

4.12.1 Benchmark Achievement Summary

Crimson Academy demonstrates mixed results in achieving its set benchmarks, with strong performance in some areas but significant shortfalls in others, particularly concerning academic averages.

The benchmark for **average marks for all classes exceeding 70% was not met**. The overall average mark for all classes combined stands at 66.46%, falling short of the 70% target. Only Nursery Middle (75%), Nursery Top A (88%), and Nursery Top B (87%) successfully surpassed this academic goal, indicating a need for widespread improvement in core academic performance across other primary classes.

Regarding student movement, the **Enrollment Rate of 100% was generally achieved and often exceeded**. The average enrollment rate across the school is 100%, with several classes showing rates above 100%, indicating successful student intake. However, Nursery Top B's enrollment rate of 94% slightly misses this target, while P4A at 87% and P4B at 88% show more significant underperformance. The **Transition Rate benchmark of 90% was not met** overall, averaging 78%. While Nursery Middle and Nursery Top A achieved 100% transition, and P4B achieved 91%, many classes, such as P1A (42%), P1B (51%), P2A (75%), and P3A (63%), fell considerably below this target, suggesting challenges in student progression.

The **Repetition Rate benchmark of 20% was partially met but often exceeded**. The school average for repetition is 23%, slightly above the benchmark. While Nursery Middle, Nursery Top A, and Nursery Top B had 0% repetition, classes like P1A (49%), P1B (44%), and P3A (31%) significantly exceeded the 20% limit, indicating a higher number of students being held back in those grades.

Finally, the **Dropout Rate benchmark of 15% was largely maintained or surpassed positively**. The overall average dropout rate is 1%. Many classes, including Nursery Middle and Nursery Top A, reported a 0% dropout rate, which is excellent. Even classes with negative dropout rates (e.g., P1A at -8%, P2A at -11%, P2B at -15%) suggest an increase in student numbers rather than students leaving, which is a positive sign for student retention.

In summary, Crimson Academy excels in maintaining and often exceeding its enrollment and dropout rate benchmarks. However, the school needs to implement significant strategies to improve the average marks across most classes, boost transition rates, and reduce repetition rates to meet its stated performance objectives fully.

5 SCHOOL PROGRAMS

5.1 Nursery Graduation Program

Crimson Academy recently hosted a joyous graduation ceremony for its nursery school students, marking a significant milestone for over a hundred young learners. The event was a heartwarming, school-wide celebration, drawing not only proud parents but also extended family members who gathered to honor the accomplishments of their little graduates. The atmosphere was filled with excitement and pride as the children, adorned in their graduation attire, beamed with anticipation for their next educational journey.

This annual graduation is a testament to Crimson Academy's commitment to foundational education, celebrating the successful completion of the nursery program and preparing students for primary school. It's a special occasion that brings the entire school community together, reinforcing the strong bonds between students, families, and staff, and creating cherished memories as these young learners take their first steps into a broader academic world.

5.2 P6 Graduation Program

Crimson Academy recently celebrated the graduation of its P6 class, a truly remarkable cohort of **44 students** who have set an exceptionally high bar for academic achievement. This joyous occasion honored not just their completion of primary school but also their outstanding performance in the national exams, where **all 44 students scored within the 90th percentile or above**. The ceremony was a proud moment for the entire school community, recognizing years of hard work, dedication, and the robust educational foundation provided by the academy.

The success of these graduates extends beyond their impressive exam results; it culminates in a future brimming with opportunity. As a direct result of their stellar academic performance, **all 44 P6 graduates earned placement into the top secondary boarding schools in the country**. This extraordinary accomplishment underscores Crimson Academy's commitment to fostering excellence and preparing its students for continued success at an elite level, solidifying its reputation as a leading institution in primary education.

5.3 School Extracurricular Programs

Crimson Academy offers a diverse range of extracurricular activities, catering to students from Primary 2 through Primary 6, with noticeable trends in participation across gender and grade levels. **Choir** is particularly popular among P6 students and is predominantly female. **Karate** draws a significant number of students from P4 and P5, showing a more balanced gender representation, though P4 has more girls and P5 more boys. **Soccer** and **Acrobatics** are exclusively male activities within this data set, engaging students from P3 to P6, with P5 showing strong participation in both. These activities demonstrate the academy's commitment to offering a variety of options that cater to different interests, though some activities clearly have stronger appeal to specific gender groups.

Activity	Class	Gender	Count
Choir	P6	F	9
	P6	M	3
Karate	P4	F	6
	P4	M	3
	P5	M	3
	P2	M	2
Soccer	P3	M	4
	P5	M	5
	P6	M	1
	P4	M	2
Acrobatics	P6	M	4
	P5	M	6
	P3	M	4
	P4	M	1

Here's a summary of the student activity table:

The provided table details student participation across four activities: Choir, Karate, Soccer, and Acrobatics, primarily involving students from P2 to P6. **Choir** is notably popular among P6 students, with a strong female majority (9 girls to 3 boys). **Karate** sees participation mainly from P4 and P5 students, with a relatively even gender split, though P4 has more girls and P5 more boys. **Soccer** is predominantly a male activity, with students from P3, P4, P5, and P6 participating, showing no female involvement in this data. Similarly, **Acrobatics** is exclusively male in this sample, drawing students from P3, P4, P5, and P6, with P5 having the highest number of participants.

5.4 Community Service Program

Crimson Academy is deeply committed to **community service**, implementing a unique and impactful outreach program that benefits the local village surrounding the school. This initiative takes place **once per month** and involves **all P6 students**, who, under the direct guidance and supervision of their dedicated teachers, go throughout the village to both **teach and share the Gospel**. This regular, hands-on experience not only fosters a strong spirit of service and empathy among the students but also consistently strengthens the bond between the academy and its neighbors by providing spiritual enrichment and fostering positive relationships.

In addition to sharing religious teachings, the monthly program also addresses the tangible needs of the community. During these visits, Crimson Academy diligently **distributes essential provisions like rice and beans** to the families who graciously open their homes to the students. This consistent act of generosity directly fulfills the biblical principle outlined in **Mark 6:7**, which emphasizes both spreading the message and caring for the physical well-being of others. Through these regular, dual efforts of spiritual outreach and material support, Crimson Academy effectively serves its local community, embodying its core values and creating a sustained, positive impact on the lives of those in the village.

5.4.1 Testimonies

The profound impact of Crimson Academy's monthly community service program is effectively captured in the **abbreviated testimonials presented below**. These heartfelt accounts from local village families directly benefiting from the students' outreach and generosity highlight how the sharing of the Gospel has brought spiritual upliftment, while the consistent distribution of essential provisions like rice and beans has provided tangible relief and support, truly embodying the spirit of Mark 6:7.

For a more comprehensive understanding of the program's reach and success, the **full testimonials corresponding to this subset will be meticulously detailed in Appendix A**. This dedicated section will offer complete narratives, further illustrating the deep appreciation and positive, lasting change experienced by these families and the strong bond fostered between the academy and its cherished community.

5.4.1.1 Mam Gilbert

Mam Gilbert, born into extreme poverty, grew up without spiritual guidance and later joined Islam, marrying a Muslim man. Her life, however, became even more challenging after she had three children and fell seriously ill, affecting her mental health. Despite escaping the hospital unwell, she tirelessly worked in dangerous conditions to provide for her family, leading to a permanent knee disability and profound feelings of loss. Desperate, she sought help at a Catholic Church, initially for physical and food assistance, but eventually accepted Jesus Christ as her Lord and Savior after repeated visits and outreach from Crimson Academy teachers and students who preached the Gospel and distributed food. Now, she is committed to reading the Bible, praying from her heart, teaching her children about Jesus, and praying for her husband to also find faith.

5.4.1.2 Mukarubayiza Jamila

Mukarubayiza Jamila, a mother of five, experienced years of physical abuse in her first marriage, which ended in 2010, leaving her with deep emotional scars. Raised Muslim, she found peace and hope by surrendering to Jesus Christ after a neighbor shared the Gospel. Despite remarrying a Muslim and facing ongoing struggles like poverty and health issues, Jamila finds strength in her faith and continues to pray for her second husband. She credits Crimson Academy's visits, encouragement, and support for deepening her understanding of Jesus' ministry, inspiring her to read the Bible and pray more fervently, and reminding her that hope exists even amidst adversity.

5.4.1.3 Mukandori Donatile

Mukandori Donatile, a 75-year-old widow and Catholic by birth, faced immense hardship after her husband's death in 2017 left her to care for eight children with no possessions. Despite losing three children, she found strength and provision through God's grace and her profession as a potter. She expresses profound gratitude to Crimson Academy for their visits, teaching God's Word, and meeting both her physical and spiritual needs. Through their ministry, she gained a deeper understanding of Jesus Christ's sacrifice, leading her to accept and follow Him, finding peace, inner strength, and salvation.

5.4.1.4 Marthin Rurinda

Marthin Rurinda, 65, faced abandonment by his wife and deepening poverty, causing him to drift from his childhood faith in the Pentecostal Church. Despite these challenges, he expresses profound gratitude to Crimson Academy's teachers and administrators for their visits, prayers, and clear interpretation of Jesus Christ's message. Their support reignited his faith, leading him to a renewed commitment to believing in Jesus. He now earnestly requests continued visits to strengthen his understanding of God's Word, acknowledging their prayers have profoundly impacted his life.

6 SCHOOL FINANCE:

Crimson Academy maintains two bank accounts to track revenue and expenses. The banks are Equity Bank and SACCO Bank. Both Equity Bank and SACCO account are used to collect student school fees. Parents pay per term.

7 APPENDIX A – TESTIMONIALS

7.1 Renewed Faith

I Mam Gilbert was born into a very poor family. Life was extremely hard, and growing up, I never knew how to pray. We struggled daily to survive, and I lived without any spiritual direction. Prayer and faith were not part of my childhood.

As I grew older, around 19 or 20 years old, I joined Islam, and later I got married to a Muslim man, At the time, I thought that maybe through religion and marriage, my life would get better. But my struggles only increased.

now I have three children in few months of my first born I fell seriously ill. It was a terrible sickness that affected even my mind people said I had "gone mad" I was taken to the hospital, but the sickness was so deep that I ended up escaping the hospital before I was healed well.

I returned home, still not well, with a baby in my arms and a life in chaos. But I had no choice I had to survive. I started doing any kind of work I could find to provide for my child and family. I fetched clay for potting, worked in dangerous mining areas, and did heavy labor, all while still unwell. In the process, I had an accident and injured my knee which left me with a permanent disability Life became unbearable. I felt forgotten. Lost. Alone.

One day, someone invited me to the Catholic Church. They told me that the God of the Bible, the God of the Catholics, could help me. Out of desperation, I accepted. I entered the church with nothing but pain, and I cried out to God: "If You are real, help me. I have nothing left." I went there not going to receive Jesus as my savior but to see God and people to help me from my problems and help me with food.

I began to pray. Even though I didn't understand everything, I kept coming back. I knew God was there. Did this like a year I don't know what caused me to not continue going there like 4 to 5 passed, but I think I am still in the Catholic Church even though I don't always go as often as I should because no other church went to.

The teachers and students of Crimson stopped by my house several times and gave me food and preached Jesus Christ and about salvation. Now I have made a firm decision I have accepted Jesus Christ as my Lord and Savior. I believe He died for me, rose again, and is coming back. I am now His child.

I'm going to start reading the Bible, little by little and start praying now not just from tradition, but from my heart. I teach my children about Jesus, and I want them to grow up knowing the way, the truth, and the life which is only found in Christ. My husband is still a Muslim, but after knowing this I will pray for him every day. I believe that one day, he will also come to know Jesus he believes Him as the Son of God, the only way to eternal life.

7.2 Brokenness to a Life of Faith and Hope

My name is Mukarubayiza Jamila and I have five children, three of whom are at primary school. Life has not been smooth for me, but I thank God for the way He has led me through.

I got married for the first time in 2003, but it was marred by suffering and tribulation. I was beaten by my first husband, physically abused, and failed to take care of the family. We lived in poverty all the time, and our marriage ended in 2010. We parted ways, and I was left alone with three children. The emotional scars were deep, and I suffered a lot of trauma from there.

I was a Muslim female at that time, and I didn't know much about Jesus or Christianity. I didn't want Christianity and had never heard anything about Jesus as the Son of God. But ever since the separation, I have opened my eyes. I've started questioning everything and searching for real peace. Then one day, God brought a neighbor who shared the gospel with me. In that message, I surrendered to Jesus Christ as my Lord and Savior.

It was like a light had been turned on in my life. I finally saw that Jesus Christ died for us – for me to save us from sin, and I knew I was among those He came to save. I completely gave myself over to Him and began to live by faith. While I was still struggling and poor on a daily basis, at least now I had hope. I began to pray fervently and beg God for help in all areas of my life.

I later remarried. My second husband, Huagumabuzima Ebrahim, is also a Muslim. We have had two children and I continue to pray for him one day to receive Jesus Christ in his heart. We are constructing our home together and, with the other struggles still ongoing like poverty, health insurance, and everyday necessities I am witnessing God at work in our lives.

One of the greatest blessings has been Crimson Academy. I'm so thankful to you for being such loving neighbors. Your visits, encouragement, and support have meant everything to me. Not only did you help physically, but you've also strengthened my faith. You've made me love Bible reading and prayer even more due to you. I'm now doing my best to grow spiritually and understand God's Word.

Through Crimson Academy, I have been able to fully understand the ministry of Jesus Christ on the cross, and now I am putting in my best effort to live according to His Word. Thank you for enabling me to know that I am not alone, and that hope is in Christ, even in the midst of poverty and adversities.

7.3 A Journey of Faith, Strength, and Gratitude

My name is Mukandori Donatile, and I am 75 years old. I was born into a Catholic family and was baptized young. My parents raised me up in the teachings of the Catholic Church, and I was brought up in their footsteps. Their faith was my foundation and kept on leading me throughout my life.

It was in the year 2017 that I went through one of the toughest experiences of my life the passing away of my beloved husband. He left me with eight children and, sadly, three have passed away. I have ten grandchildren and three great-grandchildren now. Life became incredibly hard after the passing away of my husband. He left us with nothing in our possession, and I had to single-handedly take all the responsibility of taking care of my family.

But in all the hardship and crying, I have seen God's hand. It is only by His grace that I was able to provide for my children and go on. There were some kind-hearted people along the way who assisted me, but it was the Lord who gave me the provision and strength to survive.

In order to provide for my family, I do hand work, I am a potter by profession, I make clay pots, stoves, and commodities. While the work is tiring, I enjoy the opportunity to do so. It gives me something to provide for my family.

I am most thankful today to Crimson Academy leadership, staff, and all who belong to it. You have been a blessing to our lives by coming to us, teaching us God's Word, and meeting our physical and spiritual needs. Your ministry is a true blessing, and I pray that God will keep using you to bring hope to many more.

I also thank God for opening my eyes and making me see increasingly the great sacrifice of Jesus Christ for me. Now I am aware that nothing other than faith in my Lord and Savior can save me. Through Jesus, I have found peace, inner strength, and the awareness of salvation. Now I Accept to follow Jesus and willing to be guided by Him.

My journey has not been smooth, but I testify today that God is reliable. He has never abandoned me, and He still guides me every day. I hope my experience encourages others to believe in God no matter how hard life is. There is hope in Christ.

7.4 New Faith and a Grateful Heart

I am Marthin Rurinda, and I am 65 years of age. Life has taken me through many challenges. I now stay alone, as my wife Mukagaparayi Valirien abandoned me. We are no longer staying together, but we have two children, and I thank God for their lives.

I was baptized at the Pentecostal Church as a young boy. At a tender age, I had a love for prayer and was God-fearing. I mostly had deep respect and love for born-again individuals. But with the passage of time and with poverty catching hold of my life, I started moving away from the church gradually. I have not had it possible to attend prayers or even eat together with church gatherings for a considerable amount of time now. My status made it tough even having proper clothing to put on or other needs a big problem as I grew older.

Despite all the issues, I would like to thank Crimson Academy teachers and administrators from the core of my being. Your visits to my home, your prayers, and your kindness have lit up fire again in my life. You folks reminded me of the power of prayer, and above all, interpreted the real message of the Jesus Christ more clearly.

Because of your encouragement and support, I have indeed discovered what it feels like to believe in Jesus Christ. I have come to know today how far I had wandered away from prayer and the presence of God. But today, I have made a decision a new commitment to believe in Jesus fully and to live in faith once again.

I pray that you would visit me humbly again. Return and spend more time with me, and I am able to become even stronger in my understanding of the Word of God. Your visits encourage me, and your prayers are changing my life.

God bless you abundantly. Thank you for bringing me back to my faith.
